

Shelter Rite Canopy Warranty (5 Year)

09/01/23

LC Covers warrants only to the original purchaser of a LC Covers Boat Lift Cover (said original purchaser hereafter called the “customer”), that the LC Covers Boat Lift Cover, when properly installed and utilized as a boat lift cover, will remain in good visual condition for a period that expires on the last day of the final warranty year. The start date of the warranty is the customer’s actual invoice date. This warranty applies only to failure due to workmanship or material defects subject to the following terms, provisions and conditions:

No free repair or prorated replacement will be made for any cover at any time for damage resulting from improper installation of the cover, distortion of the framework upon which the cover is mounted, negligence, vandalism, acts of God, chemically induced degradation (strong cleaning products), rodent damage or petroleum product damage. Also, this warranty does not cover fading or matching separate cover fabrics. All claims must be in writing, and all written claims must be submitted prior to the expiration of the applicable warranty period.

LC Covers are warranted for a period of 5 years against seam failure and stitching failure under normal conditions.

Canopy’s that have an additional length added to the side drop are **NOT** covered under the warranty for any wind damage to the side drops.

Each brand of canopy has a specified Standard Drop size that is considered the shortest length available to reduce damage due to excessive wind or improper installation. Any canopy with additional length added to the valance / side drop are susceptible to cracking / peeling of the fabric due to excessive wind.

Zippers are **NOT** covered with any warranty other than stitching failure.

If LC Covers is not able to determine if the problem is covered by its warranty through digital inspection means, the customer will be responsible for shipping charges to LC Covers for a pre-warranty inspection as well as shipping charges back to the customer. If the problem is covered by LC Covers warranty, LC Covers will reimburse the customer for the shipping charges.

In the event that LC Covers chooses to repair the cover at any time during the warranty period, the customer will not be charged for the repair. LC Covers must receive the defective canopy cover within 30 days of the customer claim.
